

## ABOUT THE 2017 VISIT

In 2009 California schools received more than \$2 billion in Qualified School Construction Bonds and Qualified Zone Academy Bonds.

For the first time since 2009, both parties have proposed major infrastructure investments. The President has said schools should be included and Senate Democrats have included \$75 billion during ten

years for schools. Both the President and the Senate Democrats have proposed more funding for energy efficiency and the Democrats have proposed including renewable energy funding.

Join CSF on May 10-12, 2017 in Washington, D.C. and help us advocate for California to again reap major rewards and funding from federal infrastructure programs.
